Procedure

Hair colouring and lightening use chemical products. Possible effects: scalp irritation, dryness, a colour different from expected, an allergic reaction.

For safety a patch test 48 hours before colouring is recommended. Declining it is your informed choice.

1. Patch test before colouring

- ☐ Done, no reaction
- ☐ I decline the patch test
- ☐ Not done

2. Have you coloured your hair with henna or basma in the past year?

- ☐ Yes ☐ No

When? _____

Health

Your answers help choose a safe procedure. They are kept only in your master's records.

1. Do you have any allergies (cosmetics, glue, dye, latex, medication)?

- ☐ Yes ☐ No

Which allergies? _____

2. Did you ever react to similar procedures?

- ☐ Yes ☐ No

What was the reaction? _____

3. Are you pregnant or breastfeeding?

- ☐ Yes ☐ No

4. Is there any acute inflammation, wound or irritation in the treated area?

- ☐ Yes ☐ No

What exactly? _____

5. Which medication do you take regularly? (optional)

Risks and aftercare

☐ I have been told about the possible risks and the aftercare, and my questions were answered.

2. May the result be photographed?

- ☐ No photos
- ☐ Yes, for my master's records only
- ☐ Yes, and for posting without my face

I confirm that I answered truthfully, I understand the risks and the aftercare rules, and I agree to the procedure.
